SUMMARY

Full-Stack Developer and final-year B.Tech CSE student with expertise in AI web integrations. Proven track record building scalable applications serving 1000+ users with experience in React, Next.js, TypeScript, and modern web technologies. Completed internship at a Y Combinator-backed startup, solved 300+ DSA problems, and delivered production-ready solutions through multiple internships and freelance projects.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Java, Python, C++

Frontend Web Development: HTML5, CSS3, React.js, Next.js, Vue.js, Nuxt.js, Tailwind CSS

Backend & Databases: Node.js, Express.js, REST APIs, GraphQL, MongoDB, PostgreSQL, Firebase, Supabase

Tools & Platforms: Git, GitHub, VS Code, NPM, Postman, Vercel, Netlify

Generative AI & Automation: LLMs, NLP, RAG, LangChain, Vector Databases, AI Agents, Gemini API

Other Skills: System Design (basics), CI/CD (GitHub Actions), Unit Testing

EXPERIENCE

Frontend Developer Intern

September 2025 – November 2025

Cekura AI (YC F24), San Francisco, CA (Remote)

cekura.ai

- Contributed to a YC-backed startup building the reliability layer for conversational AI agents used across enterprise teams.
- Developed intuitive dashboards for automated testing, monitoring, and observability of voice and chat AI systems.
- Built interactive front-end layouts using TypeScript, Next.js, Tailwind CSS, and shadcn UI for a seamless customer experience.

Software Development Intern

July 2025 – September 2025

Nile Wellness & Medicare Pvt Ltd, Gurugram (Remote)

nilewellness.com

- Developed multi-tenant treatment and lead-generation pages for five major Indian hospitals serving international patients.
- Converted 50+ Figma designs into responsive, high-performance React components aligned with brand requirements.
- Integrated OneSignal notifications, Google Ads tracking, Tawk.to live chat, and multi-language support using Next.js and Radix UI.

PROJECTS

ResumeGPT

tryresumegpt.vercel.app

- Built an AI-powered resume generator converting natural language prompts into professional, ATS-friendly resumes.
- Scaled to 200+ active users with integrated ATS scoring, RAG content suggestions, and optimization features.
- Developed using Next.js, TypeScript, Prisma ORM, NextAuth, and Gemini API for authentication and AI capabilities.

MenuViz

menuviz.vercel.app

- Built an AI-powered creative studio for restaurants to generate food images, menus, posters, logos, and branding assets.
- Implemented AI prompt enhancement, image gallery with filtering, generation history, user settings, and data persistence.
- Developed with Next.js 16, TypeScript, Tailwind CSS 4, shadcn/ui, Supabase, Gemini-3-Pro API and Vercel AI SDK.

NotesNeo

notesneo.vercel.app

- Built an online study notes platform used by 1000+ university students for semester-wise quality notes access.
- Engineered personalized dashboards, favorites, localStorage persistence, PWA support, and mobile-first responsive UI.
- Implemented using Next.js 16, TypeScript, Tailwind CSS 4, Radix UI, and live AI chatbot for student support.

NeoCompiler

neocompiler.vercel.app

- Developed a real-time multi-language code editor supporting 10+ languages with collaborative social coding features.
- Integrated Monaco Editor, Piston API for execution, and Gemini API for AI-powered coding assistance.
- Added public snippets, user profiles, theming, and community feed using React, Firebase Auth, and Tailwind CSS.

EDUCATION

Maharshi Dayanand University, Rohtak

2022 – 2026

Bachelor of Technology, Computer Science Engineering

Percentage: 80%
